

EECS 581: SOFTWARE ENGINEERING 2

PROJECT 1

Sep 14th

GROUP MEETING

No meeting today

DAY-BY-DAY ACCOUNTING

Vinayak

- Task Description: Bug Resolves
- Hours Spent: 1 hour
- Notes: Made code robust to invalid inputs (it now blocks whenever there is an invalid coordinate, like A0129)

Zach

- Task Description: Code verifies
- Hours Spent: 1
- Notes: checked the code one last time to ensure that everything works at expected

Nicholas

- Task Description: Commenting Fixes
- Hour Spent: 0.5
- Notes: Fixed grammar corrections, proper indentation, and comment organization throughout code

Kristin

- Task Description: More testing and fixes
- Hour Spent: 1.5
- Notes: (Forgot to commit until 9/15) Enhanced input handling to accept lowercase coordinates and improved validation for invalid inputs. Simplified setup by asking for the number of ships only once, removing redundant prompts for each player..

Lisa

- Task Description: Review document
- Hour Spent: 1
- Notes: Finished all the document and review again all files to make sure everything meet the project requirements
