

EECS 581: SOFTWARE ENGINEERING 2

PROJECT 1

Sep 11th

GROUP MEETING

Meeting start: 6:30 pm

Meeting end: 7:15pm

Attendance:

- Member present: Zach, Nicholas, Lisa, Vinayak
- Absent: Kristine (out of town)

Purpose: Discussing about members' ideas and project planning

Overall:

- Deciding the platform will be used in the project (Python)
- Creating a Github repository and uploading all files we have.
- Members choosing the tasks that they want to work on
- Finishing the demo code, discussing about enhancing the code and making a better output

DAY-BY-DAY ACCOUNTING

Vinayak: helped uploading files to the repository and checked the code

Zach: Did some testing on the demo code and tested some ways of polishing the code and program to look/work better

Nicholas: created Github repository

Kristine:

Lisa: worked on demo code, creating documentation of meeting notes and day-by-day accounting.
