PROJECT 1

Sep 12th

GROUP MEETING
No meeting today

DAY-BY-DAY ACCOUNTING

Vinayak
- Task Description: Reviewing team member's code
- Hours Spent: 1 hour
- Notes: Did not find major bugs, started working on testing

Zach
- Task Description: Sent email to GTA and Dr. Johnson and Bug fixing and optimization
- Hours Spent: 1.25 hours
- Notes: Emailed GTA and Dr. Johnson about our choice of language and platform. Stress tested the program to find any major errors and corrected them. Also made some small changes to make the program easier to run and understand by any users.

Nicholas
- Task Description: Commenting on Code
- Hour Spent: 2 hours
- Notes: Added comments for clean code reading and provided adequate prologue comments.

Kristin
- Task Description: Project Feature Enhancement
- Hour Spent: 2.5 hours
- Notes: Enhanced fire function to track hits, misses, and sunk ships. Improved player interaction with detailed feedback and turn prompts. Updated ship placement and validation functions.

Lisa
- Task Description: Documentation
- Hour Spent: 1 hour
- Notes: Created a doc file of today's team note and estimated person-hours, editing the template of the notes. Start working on the code documentation, including the introduction and overview.
